

b) left skew  
center @ 112  
(82, 129)

yes, 82

c)  $IQR = Q_3 - Q_1 = 119 - 105$   
 $= 14$

$1.5 \times IQR = 1.5 \times 14 = 21$

$Q_3 + 21 = 119 + 21 = 140$

$Q_1 - 21 = 105 - 21 = 84$
